LETTER TO OUR SHAREHOLDERS 3-2006

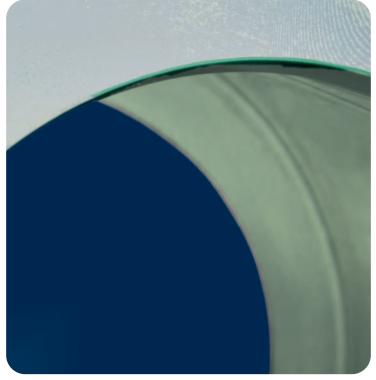

HIGHLIGHTS

- > Sales 1-9/2006 up 43% to MEUR 176.6
- > Profit before tax 1-9/2006 up 101% to MEUR 33.9
- > Record order backlog 9/2006 up 91% to MEUR 218.3 (following MEUR 114.2)
- > Highly positive market environment continues

Dear shareholders.

the upward cycle in the oilfield service industry continued undiminished throughout the third guarter of 2006. This development was based on two factors; on the one hand, the demand for oil remained at a high level because of the sustained growth of the global economy and the rapidly expanding economies of the Asian growth region. Analysts expect the already very strong demand for crude oil in 2005 to rise once again despite of the fact that oil prices have gone up in 2006 as compared with 2005; on the other hand, international oil companies continue to heavily invest in exploring new oil deposits. The share of technologically challenging exploration projects, such as offshore projects, is steadily on the increase. Although the oil price slightly fell in the third quarter - compared with the price peaks in the preceding months of 2006 – this had no impact on current drilling activities conducted by the oil companies, as the demand for oil presently is the most important driver of exploration projects.

Against this background, Schoeller-Bleckmann could again fully benefit from the booming industry development in the third quarter of 2006 and continue its constant course of growth. With bookings in the third quarter of 2006 totalling MEUR 102.1, the MEUR 100 threshold was exceeded in terms of quarterly orders for the first time ever. The high level of demand was observed in all segments and regions alike. Part of the most recent orders have already been scheduled for fiscal 2008. The order backlog at the end of the third quarter amounted to MEUR 218.3, up 91% against the comparative figures of the previous year.

In an effort to secure this course of growth, the current capacity expansion and capex programme worth around MEUR 58 will be further intensified. Therefore, at the Ternitz site, the first machine tools for high-precision components (MWD/LWD) acquired under the capacity expansion programme were already commissioned. Moreover, the construction works required for the next expansion stages were advanced speedily. They include further specialised manufacturing equipment and the new forge scheduled to go on stream in 2007. Apart from Ternitz, comprehensive capacity expansions will also be implemented at the US sites and in Mexico.

We anticipate sustained positive market conditions in the oilfield service industry in the next quarters as well. The challenges to be tackled in the months ahead are the further expansion and optimisation of production capacities, planning and procurement of required raw materials and the speedy implementation of the capacity expansion and investment programme. Overall, 2006 should see another absolute record year for our company. However, effects such as the euro-dollar exchange rate at the end of the year will have to be considered.

Ternitz, November 2006

Gerald Grohmann Chairman of the Executive Board, CEO Franz Gritsch Member of the Executive Board, CFO

NOTES ON THE NINE-MONTH STATEMENT

Schoeller-Bleckmann Oilfield Equipment AG could continue its course of growth throughout the third quarter of 2006 as well. Sales generated in the first nine months of 2006 went up 43% to MEUR 176.6 (following MEUR 123.9) over last year's level. Profit before tax improved by 101% to a total of MEUR 33.9, following MEUR 16.9 year-on-year, net income by 105% from MEUR 12.0 in the same period of 2005 to MEUR 24.5 at present. This corresponds to earnings per share of EUR 1.53 in the first nine months of 2006, calculated for an average of 16 million shares, following EUR 0.80, calculated for 15 million shares in the same period of 2005, an increase of 92%. The EBIT margin in the first nine months of 2006 was 19.9% (following 14.5% year-on-year).

Sales revenues in the third quarter of 2006 rose by 38%, from MEUR 44.8 to MEUR 61.7. Profit before tax climbed to MEUR 12.6 (compared with MEUR 6.3 in the third quarter of 2005), reaching a new record level in the third quarter of 2006.

Under the current growth strategy, large-scale capex spendings were conducted at all SBO sites. In the period from January to September 2006, additions to fixed assets amounted to MEUR 19.9 (following MEUR 13.4).

The growth strategy was characterized recently also by an extensive upsizing of our headcount, in particular in production. Despite of the tense labour market situation concerning skilled workers in the oilfield service industry, SBO succeeded in recruiting highly qualified employees: The headcount as per September 30, 2006 was 1,051, an increase of 20% compared with 875 employees as per September 30, 2005. Some of these new recruits underwent basic and advanced training provided by Schoeller-Bleckmann. Labour upsizing took place mainly at Ternitz and in North America. At Ternitz/Austria, the headcount was increased by 41 recruits, compared with December 31, 2005 and in North America (including Mexico) by 82 recruits. Over the next quarters, the company plans to continue its recruitment and training activities.

The SBO share

The company's successful development was also reflected in the performance of the share. The closing price of the SBO share as per October 2, 2006 was EUR 29.92. Compared with the closing price as per December 31, 2005 of EUR 24.65 this was an increase of 21.4%. The peak price achieved (intraday) in the first nine months of 2006 was EUR 35.5.
